

## Report on Rest of the world AGM 2017

I have a brief report. I accepted one new member of the Rest of the World Region.

This turned out to be a long process, because it was necessary to first find a person belonging to a "Rest of the World" country, convince him to become a pilot and Rotarian, and then to make him a member of the IFFR was already done very quickly and easily 😊

To date, according to the [iffr.org](http://iffr.org) data, we have 21 members  
I plan to try to find new members of IFFR in India and Georgia. It would be nice if we could create a short clip giving a presentation about our wonderful community for potential members.

Vladimir Kogan  
VP Rest of the World
