ABOUT US

The Radford Park Residents Association is a community body run by volunteers who live on our estate. We have been established for 8 years, engaging with one another through regular social events whilst looking out for one another.

We're here to represent your views and concerns on our estate and to encourage and promote a sense of community spirit

WHY JOIN?

- To have a representative voice to influence decision making that affects you and your neighbours' homes.
- To campaign on issues which affect us all
- To provide a forum for residents to consider matters of local concern and importance
- To give advice and information to residents
- To increase the sense of belonging to a community
